66 The first-ever full map for one of the best LAN games of all time, Unreal Tournament, has finally been released! U.S. Unreal Tournament is a multiplayer first-person shooter video game developed by Epic MegaGames and released by Epic MegaGames in 1997. It is the first of the Unreal Engine-based games to be released commercially. The game was originally released for Windows, with ports to the Mac OS and PlayStation. The game is set in the year 2072. A virtual reality immersion called the Metaverse is being developed by an evil company called the Combine, and the player assumes the role of a bounty hunter searching for a woman named Komiko who is the only person who can stop the Combine. The player is equipped with a powerful force field known as the G.S.S. (Ground Support System), and can fire down the screen at the Combine's forces and steal their powers. The game is viewed through a helmet-like device called the Vault-Tec Assault Rifle, or V.T.A.R. The game

features three different modes of play: single-player, cooperative (two to four players), and deathmatch. There are various weapons, including the sniper rifle, pulse rifle, plasma cannon, and the V.T.A.R., all of which are upgradable. "The best game in the year of 20xx...when there was not many really good games" - DJ Bean Unreal Tournament is one of the top 10 PC games of all time, alongside Portal, Half-Life and Quake. The game sold around 1.4 million copies in the first three days after release. Game Features: Unreal Tournament features several game modes, including single-player, cooperative and deathmatch modes, with 3 maps for each game mode. The maps are Headquarters, Zanzibar, and Spaceport - each is set in a futuristic city, and features several different types of maps. Unreal Tournament is one of the best multiplayer shooters, as well as a game with a very original story. There are three weapons types in Unreal Tournament: the energy weapon, plasma weapon, and the sniper rifle. The energy weapon can be upgraded to a ballistic weapon, and the plasma weapon can be upgraded to a fire-based weapon, which can then be upgraded to a pulse weapon. The energy weapon can be upgraded to a wide area damage weapon, and the plasma weapon can be upgraded to a 82157476af
