About This Game

From the writer of “Teleglitch: Die More Edition” comes Shortest Trip to Earth, a roguelike spaceship simulator featuring exploration, ship management, game-influencing decision-making and real-time tactical battles.

Onboard combat against hostile intruders is a messy business

Explore a detailed and deadly universe

Embark on a perilous journey through a procedurally generated universe and explore massive space sectors crawling with exotic lifeforms. Engage in action-packed tactical combat against hostile ships, boarding parties and inter-dimensional space monsters.

Each ship comes with its own strengths and weaknesses

Master the art of survival by customising your ship with modular components and perks. Choose from a range of spaceships and manage life within your vessel - from crew, pets and drones to ship modules and weapons. Shape your journey through hundreds

of multiple-choice events, featuring unique hand-drawn illustrations.

A selection of crew types

Shortest Trip to Earth features unforgiving permadeath, but you can unlock perks to increase the odds of survival on your next run.

Key Features

- Master the art of survival in unexplored space!
- Traverse a procedurally generated universe full of intrigue
- Ship customisation & crew management
- Epic real-time tactical space battles
- Onboard combat, featuring hostile intruders, drones and battle-hardened pets
- Hundreds of random events with unique outcomes
- Uncover fascinating and exotic stories from across the universe

Title: Shortest Trip to Earth
Genre: Action, Adventure, Indie, Simulation, Strategy, Early Access
Developer:
Interactive Fate
Publisher:
Iceberg Interactive
Release Date: 9 Oct, 2018

a09c17d780

Minimum:

Requires a 64-bit processor and operating system

OS: Microsoft Windows 7, 8, 10 - 64 bit

Processor: Intel Core i3 or equivalent

Memory: 4 GB RAM

Graphics: Intel HD4400 or dedicated DX11 GPU (1280x720)

DirectX: Version 11

Storage: 500 MB available space

English

Live long and Badger.. Interesting and well presented novel, that keeps you wondering what will happen next for the whole time. Great soundtrack, you can tell that talented people were working on this little piece of art. Highly recommended for fans of story-driven games, can't wait for the second part of the game. Well done !. This game is a ton of fun. There's nothing quite like the rush of the charge, and driving your sword through an opponent's skull.

Recommended!. This is delightful, as fun as DLC Quest or Knights of Pen and Paper. The squiggly graphics are crisp and abstract and the lettering is surprisingly very legible. The NPC comments are hilarious in an unexpected way. The controls feel fine using a 360-controller, about as good as minecraft imo. Be warned, this game is hard. It quickly ramps up at the start of level 3 of the first land.

...also, someone mentioned that the music is epic. I couldn't agree more. Fantastic.. Finally found a game where I can interchangeably play from the PC and then swap to the tablet when it's time to do business elsewhere, involving porcelain.

On a serious note, I actually enjoy playing this much more over the original World of Tanks mostly because of the smaller size teams, maps, and no Artillery. Matches are very short, anywhere from 5-10minutes at most usually and the grind isn't too terribly bad. The balance is something that still seems to favor russian tanks and their crazy DPS to Armor ratio.

The real beauty is that all my progression between when I play on the PC or when I play on my tablet from the app is tracked as one. If you're a fan of these types of Arena style games you will likely enjoy this more casual version of WoT.

Pro's:

- Fast Matches
- No Artillery
- Progression shared between Mobile App and PC
- Easy to jump in and play
- Great time killerCon's:
 - Game balance favors russians with massive DPS.
 - Lower level graphics than the original (Likely due to being App friendly)
 - Seems to be a lot of AFK people (Or maybe people with connection issues). Very few races in the base game. This should've been free.

Just another add-on to the game.. I was not expecting much for the sale price of .99 cents. But this VR experience is definitely better than all the negative reviews would leave you to believe. Are there better VR environments out there? Sure, the BluVR set the standard in 360 VR experience (of course, movement is very limited in that "game.") Perfect VR is probably one of the better VR meditation geared apps.

However, this game is only .99 cents currently or \$1.99 at regular price. Is the game worth that much? Yes. The VR environments are actually more than adequate to enjoy and relax. The only VR environment that I found needed more work was the Sahara desert mirage V pond environment. All the other ones had really nice environments you could teleport around and enjoy. They all had little details that made the experience worthwhile. For example, the swing set where you can touch and move the swings. Do I wish I could sit in the swing and go down the slides? Yes, of course. But then it would probably not be a relaxing walk VR game. It would be a playground VR game.

The game does its own sounds. However, you can open up the YouTube browser and listen to the music that you want to listen to while you enjoy the VR surroundings. I don't think you can ask for more for \$2. Better than watching Youtube on your PC or laptop or mobile.

Rate 6/10 given the price.. such a great idea, and well executed.. So i played this for 10 minutes and my conclusion is clear. Is this a typical game for a free mini game website. Does this fit on steam? uuhm i would say no.

Lets tell where its all about; its a puzzle on time when you need to build the castle, on the way they already showed. It's on time but also so much going on, like people who are attacking your castle and rain what blocks u to build. You need to focus on so many things!

I dont have the feeling that i spent my money well. I payed to much if u ask me. I prefer this game on a free website and not on steam, not even an achievement. But you can earn prices and more levels so yeah... nice try but no..

UPDATE 7 januari 2015 23:05:

For now it's too simple for a steam game, i hope they update in the future with more features so its more a complicated game with more possibilities so it's more worth it!. Nothing exceptional, but it's overall a decent platform game, you may want to get it on sale.. Good classic rpg that is a must play. Unless you really loved the free version or have never played this, wouldn't really recommend, very little has been changed or added. While not being a perfect game, I believe that in my opinion, this is the best game in the series. I love the XP system, the towers, the maps, and the new additions, and how this game grew from the BT4 Expansion.

This game features a new art-style not seen previously in the past 4 games, and it looks a lot cleaner, and smoother. The new Special Agents feature is much appreciated, as it added some great new towers whilst using the Monkey Money well, such as the Tribal Turtle, and the Monkey Farmer. These Special Agents can also be upgraded with the Pro-Mode, that involves you getting 50 of the same type of Special Agent.

Overall, this package of a 10 dollar game felt complete, with a new upgrade system for the monkeys, a ton of brand new maps, and even CO-OP mode and missions. This is a must buy for anyone looking to kill time, or just looking for a good time.. Joe Danger 2 improves upon the first game by adding more vehicles and other ways of transportation. I don't know what to tell you about it really. If you played the first one this one is very similar. Yes, the different vehicles add more variety to the game, but it's still all about collecting stars, letters and other collectibles, while performing as many stunts as you can. Except this time, the whole game is set on a movie set. Even the graphics look the same, with just slightly more variation.

Also, the game performs much, much better than the first one. The first one had some annoying frame drops, but JD2 runs at a solid 60FPS at all times. But this Joe occasionally has some frustrating levels with not enough checkpoints.

In the end Joe Danger 2 still isn't very long if you don't like to collect stuff, but if you do you're in for a treat. It's a great game, just don't expect too much new stuff. However, if it's your first Joe you have nothing to worry about. Just enjoy the ride !

[Rating: 77/100]. I love the game and the map is nice, albeit it seems to run the worse of all of them but I can't recommend it as it is a huge missed opportunity.

I like the animals that are here but the lack of elephants, giraffes, rhino's, and the other big game of Africa is just silly and I can't excuse it because of some nonsense ethics about video game hunting.

I can shoot a coyote 4 times with a 22 and get 100 percent integrity and wipe out herds of animals. So I'm more inclined to believe they rushed the map out and didn't want to make all the animals than they are making an ethical stand.

Either way, wait until it goes on sale or they patch more animals unless you really want to hunt lions or the African ungulates.
